Logline: The owner of a failing hotel unwittingly becomes host to a trio of Russian women illegally smuggled into the country. He has to protect them from the Russian Mafia, Homeland Security, and his imbecilic staff of horny employees.

The End of a Legacy

Following the death of his father, Tommy inherits the family hotel. Tommy's incompetence and his "dumb and dumber" staff of employees bring the business to the brink of bankruptcy.

The Beginning of a Travesty

Tommy's brother Harry, at a diplomatic post in Moscow, runs a thriving black market enterprise. Harry smuggles three Russian "bar girls" to the USA to placate his black market partner while presumably helping business at home.

The Hope of a New Life

Despite run-ins with the Russian mafia and Homeland Security, the three Russian women expect a bucolic suburban lifestyle at Tommy's hotel. Instead, they find their lives as the dynamite added to an already raging inferno.

The Light at the End of the Tunnel

What Tommy learns is that the Russian women have the know-how to pull the hotel out of potential bankruptcy and transform it into a thriving business. It appears all will end well... until Harry is investigated for "acts of treason."
