Genre: Action

Logline: When the President's daughter is kidnapped by terrorists, a suburban soccer mom with an erased memory must regain her dormant skills as a master assassin to defeat the kidnapers and teach her own daughter the skill of the trade.

A Master Assassin

Fifteen years ago, Julie was the rising star of an international mercenary team. Her mission, with partner Siobhan, is to terminate "Double-K," who is Julie's half-sister. The mission fails as Siobhan is suffering morning sickness, after having of Julie's eggs fertilized in vitro by Siobhan's husband Vincent.

Team lead Evelyn gets word of Double-K's location, a school where she holds several children hostage. Julie is ordered to stand down, but can't resist the opportunity to finally settle a long-held grudge. When the mission ends badly, Julie's memory is erased and she is given a new identity.

A Suburban Soccer Mom

Julie (known as Sally) lives with a balding nerd of a husband and Ruby, her doting 10-year-old daughter, unaware of her past. But when Double-K, thought to be long dead, kidnaps the First Daughter, the decision is made to reactivate Julie; who has to reconcile her past life with an unfamiliar present.

Evelyn and Vincent decide to take Ruby along, as she has a half-sibling... 14-year-old Kahala from the now-deceased Siobhan. Kahala is an accomplished martial arts and weapons expert who is eager to teach her newfound sibling the skill of the trade. Ruby surprises everyone with her ability to quickly adapt and learn.

An Old Adversary

Vincent and Julie lead a team to confront Double-K and her band of terrorists. But Double-K knows Julie well enough to cover her tracks, sending Julie's team on "wild goose chases." Julie accomplishes her mission to rescue the First Daughter and kills *most* of Double-K's team.

Unbeknownst to Julie, her victory was not complete. Double-K survived and is being treated in a terrorist-run hospital. She is actively planning an even more heinous atrocity that will lure Julie into another ambush and, she would hope, Julie's demise.

An Uncertain Future

The younger Julie never wanted to be a mother. Donating eggs to Siobhan meant nothing to her at the time. Today, Julie has two offspring: Ruby and Kahala. However, with Vincent and Evelyn there, she finds it to be a job she is well-suited for. Or, is she?
